Heavy-Duty Aerosol Compressor

The quiet, compact design, easy operation and durability make this unit an ideal choice for continuous delivery of airway humidity and specialized drug delivery.

- A consistent compressor pressure decreases unnecessary home visits and assures the patient the most effective treatments
- UL and CUL 60601-1 approval eliminates unnecessary inventory and allows an easy transition from the nursing home to the patient's home
- Quiet operation allows the patient to rest more easily while using equipment
- Easy operation decreases set-up time and assures a better understanding from the patient/caregiver

8650D DeVilbiss Heavy-Duty Aerosol Compressor

Nebulizers

DeVilbiss Reusable Nebulizer

Model 800C
Green/Purple

Model 800D Blue

Model 800G
with Interrupter

The DeVilbiss Reusable Jet Nebulizer provides effective value from start to finish. Home healthcare providers benefit from a product that increases their bottom line, while the patient receives a more efficient, quicker treatment.

Three models to choose from including the colorful 800C, the blue 800D, and Model 800G with an interrupter that helps to conserve medication. The interrupter is held closed during use and cuts off airflow to the nebulizer when released.

Benefits

- Cuts treatment time by almost half compared to disposable nebulizers.
- Up to 75% of the particles are within the respirable range which may provide a more effective treatment.
- The spill-resistant design can nebulize at a 45° angle and is dishwasher safe.
- Reimbursed by Medicare and most managed care organizations every 6 months.
- Can be used with any standard compressor or standard mask (22mm fitting).

Business Model

Nebulizer Type	Disposable	Reusable
Reimbursement Per Nebulizer	\$2.50	\$25.00*
Cost of Nebulizer	\$.50	\$8.50
Cost of Delivery	\$1.00	\$1.00
Cost to Bill/Process	\$1.00	\$1.00
Total Cost Per Unit:	\$2.50	\$10.50
Profit Per Unit:	\$0.00	\$14.50

*The Reusable Nebulizer is reimbursable under the A7005 HCPCS code. Reimbursement rate currently at \$26.21 - \$30.83 depending on geography.

Other Nebulizers

4650D-621 (50 pack)

- Easy-to-assemble and clean
- Break-resistant plastic provides the patient with 15 days of use.
- Capacity of 6.0 cc

"T" Updraft® II Model #1734 (50 pk.)

- Unique small-size, high output design produces a thick dense mist for up to 15 days use.
- Clinically tested for use with Pulmozyme®

Model 646

- Uniquely designed t-piece and activator valve in the long-life nebulizer allow the patient to exhale without medication waste.
- Clinically tested for use with Methacholene

Customize Your Compressor Nebulizer Package

DeVilbiss understands that you may need specialized packaging options for your compressor nebulizer system. Which is why we are proud to offer the Pulmo-Aide Compact Customization Program – you tell us what you want included and we'll package the system in our factory and ship the units to you. Here are some of the various items that can be included in your customized package:

- Additional Disposable Nebulizers
- Reusable Nebulizers
- Compressor System Carrying Bags
- Adult, pediatric or dragon aerosol masks
- Co-labeled (Hot Stamped) Compressor
- Retail Packaging
- Instructional VHS or DVD

DeVilbiss KIDS CLUB®

The DeVilbiss KIDS CLUB® asthma compliance program is a comprehensive program offering kids added incentives to take their treatments. The package includes a parent's *Record & Resource Book* containing helpful information and a personal record of the child's asthma care. The child receives a *KIDS CLUB Activity Book* and a *Compressor Critter* to help the child's treatment be less intimidating and more fun. Five of each of these items, along with an informative videotape "A Kids Guide to Asthma", are packaged in a tree-house box for easy storage. The KIDS CLUB program, a marketing tool for your referral sources, is the perfect program to add value to your business.
